

REF: Our Offer for stationary pump CAR P4.25/30 APV/D – 50 Bar, vertical height approx 70-80m, horizontally 250-300m

Stationary Concrete Pumps type CAR P4.25/30 APV/ D – with:

1. Pumping group Pulsar 4 – 180/1000:

- Hopper with agitator and grate,
- Pumping cylinders diam. 180 mm, stroke 1000 mm, black pumping pistons
- Manual greasing lubrication
- Outlet diam. 125 mm (joint 5"1/2)
- Grate security, engine stop security

2. Double hydraulic circuit:

- **For Pumping Control :**

- Main hydraulic pump, manual changeable displacement,,
- Oil tank & Oil cooler

- **For Pulsar Control :**

- Gear pump
- Accumulator

3. Electric circuit

- Small control board for engine and pump control
- Hours-counter

4. Frame complete of: Axle with 2 wheels - tow bar – outriggers – bonnet

5. Cleaning system by water pump Hypro and accessories,

6. Diesel engine IVECO 8035, 60 HP, not sound-proof,

7. Performances : output 25-30 m³/h, pressure 50 BAR (not contemporary)

8. Painting poliuretanic, two-components, white ral 9010
